New generation paper straw

1-Layer Paper Straw

Introducing the NCD Single Layer Paper Straw – the eco-friendly choice you need!

Our paper straw is the result of extensive research, development, and improvement, using industry-leading technology to create a superior alternative to traditional multi-layer paper straws.

It has many advantages, such as lower cost, better quality, and an enhanced user experience. This straw uses less material and doesn't require industrial composting. It is heat sealed with no glue, providing a stronger bond which won't disintegrate in your drink and provide a smooth, comfortable experience.

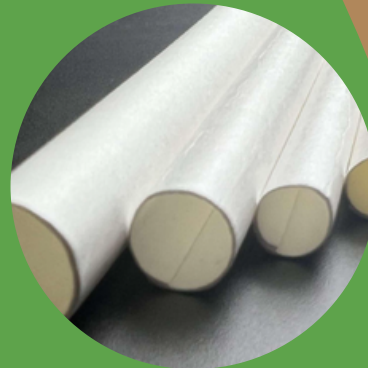

Try it today and see why it's the only paper straw you'll ever need! Get it now and start making a difference.

PATENTED TECHNOLOGY
Multiple patents applied

ADVANCED TECHNOLOGY
Experts in straw industry

SOAKING/HIGH TEMP.
RESISTANT
Up to 85 degree celsius

LOW CARBON ENVIRONMENTAL
FRIENDLY
Uses less water & energy

NATURE DEGRADABLE
No need industrial composting

100% RECYCLABLE
COMPOSTABLE
Plain paper, plastic free & glue
free

SAFE AND HEALTHY
Fully enclosed dust-free
workshop

ZERO VOC
No harm to human body
