# Our CPET lining

FOR BAGASSE TRAYS, CONTAINERS & BOWLS

Our CPET lining can be applied on all bagasse products as a heat and oil barrier to enhance durability of bagasse products without losing its integrity. The lining separates easily and account for only 5 to 8 % of the product making it up to 95% home compostable.

**Waterproof**

**No leakage**

**Oil proof**

**High temperature resistance; up to 250°C**

**Industrial oven safe**

**Microwave safe**

**PFAS FREE**
